

1. Five Digital Marketing Job Roles

Job Role	Key Responsibility
SEO SPECIALIST	Helps a website appear higher in search results by improving its content ,keywords, and overall search visibility.
Social media manager	Plans and manages social media content to keep the audience interested and encourage interaction with the brands.
Content Writer	Create useful and engaging content such blogs, website content, and promotional messages and captions.
PPC Analyst	Monitors pay online and studies their performance to make sure that the advertising budget is used effectively .
Email Marketing Executive	Create and manage email campaigns to inform customers and products, offers , updates, or new launches

2. Digital Marketing Activities of Instagram

I'll use **Instagram** as the example.

Digital Marketing Activity	How It Works
Personalized recommendations	Instagram uses users' interests and activity to recommend Reels, posts, and accounts they are likely to engage with.
Influencer marketing	Brands collaborate with creators/influencers to promote products or services to their followers, helping brands reach targeted audiences.
Paid advertising	Businesses can run targeted ads in feeds, Stories, and Reels based on factors such as interests and demographics. This helps brands reach potential customers and drive website visits or sales.

3. Real LinkedIn Job Postings in Digital Marketing

I searched for current LinkedIn job postings in India. Two interesting examples are:

Role 1: Digital Marketing Specialist — GlobalVox, Ahmedabad

The posting asks for several skills, including:

- 1. **SEO, AEO and GEO** — improving visibility across search and AI-driven search environments.
- 2. **Performance Marketing** — managing and optimizing paid digital campaigns.
- 3. **Analytics and A/B Testing** — analyzing campaign performance and testing different creatives, messages, CTAs, and landing pages.

Role 2: Digital Marketing Executive — Growthit India, New Delhi

Three important skills mentioned are:

- 1. **Google Ads and Meta Ads** — setting up, targeting, and optimizing advertising campaigns.
- 2. **SEO and Keyword Research** — understanding SEO fundamentals and optimizing content.
- 3. **Data Analysis** — understanding metrics such as CTR, CPC, CPL, CPA, ROAS, and conversion rates.

Note: Job postings can change or close, so the requirements above reflect the postings available when searched.

4. Becoming a Social Media Manager for a Brand Like Myntra

I would focus on these **three skills/tools**:

Skill/Tool	Why It Is Important
Content Planning & Canva	A Social Media Manager needs to create content calendars and develop attractive posts, Stories, Reels, and promotional creatives. Canva helps create professional-looking visuals quickly.
Social Media Analytics	Tools such as Instagram Insights/Meta Business Suite help measure reach, engagement, followers, clicks, and conversions. Analytics helps determine what content is working and what should be improved.
Social Media Platforms & Trends	Strong knowledge of Instagram, Facebook, YouTube, and LinkedIn is important for adapting content to each platform. Understanding trends, Reels, hashtags, and audience behavior can help a fashion brand like Myntra increase engagement.
